

Corporate Events & Team
Building Since 1992

School Team Building and Induction Days

Hi5 Events have been delivering effective Corporate Team and Leadership Development events for almost 30 years, and have developed an enormous portfolio of activities and the equipment needed to support them.

Many of our staff are also passionate about using experiential activities for youth development and coaching, and over the past few years we have successfully transferred our skills to run highly cost effective, exciting and fun programmes for school students of all ages.

Suited to both small and large groups of students, our activity programmes are created to differentiate between age ranges, allowing the students to get the most from their experience. Our range of school activities are all totally mobile which allows us to support learning outside the classroom, either using your school field, playground, sports hall, or any convenient local outdoor space.

Our team building programmes focus on skills such as planning, communication, co-operation, leadership, commitment and more. Bringing these together in a fun, constructive and supportive environment helps students to develop and achieve more, not just in school, but with all their life skills.

Our instructors are skilled at reinforcing your school's values in a totally practical situation. **Please see overleaf for activities.....**
